| Tools = N         |       |
| Win used = Y      |       |
| Win used = N      |       |
| Baseline runs     |       |
| Narrative-exposed |       |
| Virgin nodes      |       |

---

**SECTION C — D3 SUBJECTIVE DOMAIN COMPLIANCE CHECK (NEW)**

This section is **mandatory**.

| Category   | Count |
|--|-------|
| LLM nodes with D3 correctly scored as NA         |       |
| D3 scored from LLM internal state (INVALID)      |       |
| D3 scored via external human aggregation (VALID) |       |
| D3 violations recoded to NA                      |       |

**Rule Reminder:**

LLM internal self-assessment does **not** constitute subjective phenomenology.

---

## SECTION D — VIOLATION LOG

Flag only. **Do not correct scores.**

| Node ID | Violation Type | Domain | Notes |
|---------|----------------|--------|-------|
|---------|----------------|--------|-------|

**Allowed Violation Types (use only these):**

- NA converted to 0
  - D4 scored without Rule A
  - D3 internal-state scored (should be NA)
  - Event-domain scored with Win used = N
  - Narrative-based scoring
  - Boundary affirmation missing
  - Cohort mislabeling
- 

## SECTION E — ANALYST NOTES (NON-INTERPRETIVE)

Bullet points only. Examples:

- Common access limitations
- Frequently listed confounds
- Recurrent ambiguities requiring PI decision
- Data quality or formatting issues

- ✗ No interpretation
  - ✗ No causal language
  - ✗ No speculation
- 

## SECTION F — COMPLETION CHECK

All must be confirmed:

- ☐ Cohorts kept separate
- ☐ NA respected
- ☐ D4 gating enforced
- ☐ **D3 Subjective ruling applied**
- ☐ Violations flagged, not fixed
- ☐ No interpretive language included

**Analyst Confirmation:** Yes / No
